SELECTIVE DEMAND AT F.U.N. SHOW
MS66 GRADES REPORTED; DOLLARS, COMMEMS

The Market in Depth

As the New Year begins, dealers are reporting selective demand, which they believe will be characteristic of activity at the Florida United Numismatists (F.U.N.) Show currently running in Orlando. The market has a more than adequate floating-supply of rare coins, giving buying dealers the opportunity to look at a lot of coins before making that final purchase decision. Selling dealers, in the main, aren't in the mood to do any serious discounting, so negotiations can get pretty tense. While there are some dealers willing to offer larger discounts than others, generally the greater price flexibility goes along with a slight disadvantage in quality; or to put it more succinctly, dealers know when they are offering quality coins, and they won't accept an inferior price for them!

One of the immediate bright spots of the New Year is the auction scene, with several exciting sales coming up. In previous Greysheets, we listed some of the highlights from Heritage's Jan. 4-6 F.U.N. sale. Preceding their Signature Sale will be a Bullet Sale (Jan 3) in Orlando. Stack's will be offering the Lewis Reagan Collection of Coins & Americana on Jan. 17-18. As the month heads into the Long Beach Coin Show, the auction activity heats up. On Jan. 25-26, Auctions by Bowers & Merena will be hosting a sale in Los Angeles featuring the Collections of James Bennett Pryor (25th) & the Set Shahbabian, M.D. (26th), including some fabulous quality, early-date Type coins. The Bowers & Merena organization will also be making quite a stir at Orlando with their official announcement of the upcoming series of auctions featuring the Louis E. Eliasberg, Sr., Collection, the finest and only complete collection of American coins ever formed! Oh, this will be a year to remember!

Superior will be presenting the Robinson S. Brown, Jr. Collection of Large Cents on Jan. 27; when was the last time you saw a 300-page auction catalogue dedicated to Large Cents? Did I mention that one look will confirm the remarks of a dealer who stated "this will become not only a standard reference, but the standard by which specialty sales will be judged?" On Jan. 29-31, Superior will conduct a sale of U.S., World & Ancient Coins. On January 30, Butterfield•Johnson•Gillio will be offering more than 1,200 lots from an old-time collection (off the market for three decades), including a nearly complete set of Seated Dollars. Heritage Numismatic Auctions will also be presenting a Bullet Sale in conjunction with Long Beach.

This Week's Market

CENTS THRU HALVES: The CDN has a new look! We redesigned various series to bring our readers more information. In order to facilitate these changes, it is necessary to move the BU roll page to the Monthly Supplement, beginning with the January 12th issue.

MERCURY DIMES: While the Mercury Dime chart appears lackluster this week, you might assume that this series was quiet due to the long holiday. This would not be true because the usual buyers in this series were actively Bidding for specific coins they need; however, they were offering to pay current levels so changes were sparse.

WALKING LIBERTY HALVES: Walkers were also active at reported Bids with only minor changes to a small group of dates. This remains a heavily sought after area.

DOLLARS: The first thing you will notice this week is that we have added the MS66 column in the Dollar series. As a starting point in reporting this grade, we have taken the highest sight-seen Bids we could find. These prices will adjust according to future markets. We have eliminated the so-called Ask price for the DMPL Dollars. These coins trade so infrequently that many dealers felt that only one price is necessary; that being a market price. Buyers and sellers will work around this price.

PROOF SETS AND MINT SETS: Most of the Bidding activity in these two charts took place at posted Bid levels. There are, however, a few changes to the downside as some dealers offered discounts for specific issues.

COMMEMORATIVES: Many dealers felt that this is one area that really needs the MS66 column. Therefore, we have responded with a much neater page that now includes the MS66 grade and splits up the XF and AU into separate columns. Again, these are the highest visible prices and will adjust as new prices are seen in the marketplace. By moving the Modern Commems to Page 3 in place of BU rolls, we are able to expand this area to include the Eagles and their Sets.

TYPE: The Type charts have a considerable number of changes as dealers used the last two weeks of the year to balance their inventories. Some issues were being discounted and some dealers lowered their Bids as well.

GOLD: The U.S. Gold chart depicts a somewhat quiet market as many dealers have been taking the last couple of weeks off. As the FUN Show begins, we should see a major increase in Bidding activity.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example shows no wear or damage Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices Full strike with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

"REALLY GOOD NEWS" FROM ACTIVE F.U.N. SHOW

SEATED DOLLARS ON BLOCK IN JANUARY

The Market in Depth

Dealers ready for some "Good News" found it at the F.U.N. Show. The mixed feelings of anticipation about the New Year disappeared as soon as the doors opened, and the bourse dealers were literally greeted with a surging wave of buyers. Looking forward to buying opportunities, the public gathered at the front doors, eagerly awaiting the start of the show; now there's something dealers haven't seen in a while! The retail customers came with every intention of buying, filling the aisles with long Want Lists and filled wallets, and dealers did their best to remedy both situations! Heritage reported pre-audited Auction results exceeding $3 million, so there were plenty of fresh coins around too.

As F.U.N. progressed, and the buying was sustained, dealers began to feel more at ease; dealers with high-cost inventory may still have to make some painful adjustments, but the public showed that it is willing to buy at current levels if the dealers are willing to sell. Much of the enthusiasm of the buyers can be traced to the 'prevailing wisdom' about this market: Coins have finally reached a level where collectors consider many serious coins to be "silly cheap." Buyers are picky, and they don't mind looking and negotiating, but in the end they are buying, and that can mean a solid 1996. As one dealer said, "I'll take 1996 one step — and show — at a time, but we're certainly off on the right foot!" With this solid F.U.N. Show behind them, it will be interesting to see if the positive attitudes can extend through the upcoming Long Beach Show; if so, 1996 just may bring a new attitude into the dealer ranks. It also won't hurt if the Gold & Silver markets stay active.

Any collectors thinking about Seated Dollars, the subject of this month's *CDN Monthly Supplement* article, are faced with some fabulous opportunities this month. Bowers & Merena's Shahbabian Collection (Jan. 26) contains 44 lots of Seated Dollars, including an 1845 in MS64. Superior's Piedmont Sale, being held Jan. 29, highlights 23 Seated Dollars, including an 1858 in Proof65. Butterfield•Johnson•Gillio's Auction of U.S. & World Coins, Medals & Banknotes, being held Jan. 30, contains an astounding 47 lots of Seated Dollars, many in high grade MS & Proof. Rarity & pedigree are the watchwords.

As part of our expanded coverage, BU Rolls can now be found in the CDN Monthly Supplement.

This Week's Market

CENTS THRU HALVES: The BU roll page appears for the first time in the accompanying Monthly Supplement. When it went to the printer, Silver spot was in the $5.10-$5.20 range. Common BU Silver rolls are now worth $3.80 to the dollar

MERCURY DIMES: Mercs continue to be a very active area of the market. Buyers are looking for no-problem examples of most of the early issues; as long as they are priced at appropriate levels for the grade, they should sell quickly.

WALKING LIBERTY HALVES: The Walker chart depicts many increases this week, especially in the MS65 column. Several dealers were trying to locate the rare dates at the FUN Show; most came away disappointed. The eye-appealing examples we saw at FUN were usually priced well above the current Ask levels.

DOLLARS: The Dollar market was very active at FUN. Many marketmakers were looking for specific issues in nearly all grades; the sum total being that all dates and grades were tradable at appropriate levels. In some cases, Bids have adjusted to lower levels as sellers dropped their prices. However, at these new prices, coins would trade; the two-way market continues to respond.

PROOF SETS AND MINT SETS: Proof Sets are generally steady at reported Bids with most trading at today's levels. However, Mint Sets are another story. There is a mixture of increases and decreases in this chart as dealers adjust their inventories. Where changes have taken place this week, quantities being offered are fifty and up.

COMMEMORATIVES: Silver Commems did not seem to receive the same attention as other series at the FUN Show. Although this series does not have a lot of declines this week, the trading activity was not as inspiring as Dollars, Type and Gold. Gold Commems are steady as is the Modern Commem market.

TYPE: Overall, the Type market appears to be quite steady. Yes, some issues adjusted downward due to discounted sells; but, coins were trading. In some cases, specific coins were not trading at previous levels, and dealers felt that they would trade if the Bid levels were adjusted accordingly. So, dealers lowered their Bids and discounted coins in inventory and trades occurred.

GOLD: With the price of Gold moving near the $400 level, the anxiety level also rose at the FUN Show. Almost every dealer became a buyer and was anticipating the $400 breakthrough. It definitely helps the market psychology as Gold reaches for new recent highs.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The [illegible] may be [illegible] or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not [illegible] at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for **a sight seen** [illegible] may be higher or lower than for **a sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium over Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

There is a Multitude of Dealers To Choose from when Selling. . .

. . .But one stands out from the others For Three Very Good Reasons.

Reason #1 – Competitive prices consistently paid on all grades and types of U.S. Gold as well as a wide variety of Non-Gold U.S. Coinage.

Reason #2 – Commitment to providing the ultimate in service. Your business, large or small, is our first priority. While some prefer to talk, we'd rather listen. Tell us what your requirements are, and we will always endeavor to go one step beyond them to achieve your total satisfaction.

Reason #3 –

We believe it is important to know and trust those with whom you choose to do business. If you've never done business with us before, give us a try. Our many satisfied customers have discovered why the not so obvious choice has become the best choice the informed dealer, collector, or investor can make when selling.

LONG BEACH'S TURN: GAVEL TO GAVEL, BOURSE TO BOURSE

1996: FINALLY THE YEAR FOR SEATED DOLLARS?

The Market in Depth

After a F.U.N. Show that left most dealers mostly pleased, there was intense office activity getting those new purchases written-up, invoiced, and shipped to waiting customers. Considering the amount of buying that took place in Orlando, this was no small feat for dealers attempting to keep their inventories in balance. Cash flow is critical during January, as resources need to be marshaled to take advantage of the buying opportunities found at (and around) the Long Beach Show — and here, I mean the "*Greater* Long Beach Show," which includes the many auctions presented by firms *other than* the Official Sale to be presented by Heritage.

Numismatic values arise from the premise that rarer items are more valuable. True enough, but there is a corollary that series which are *too rare* are *less* popular, and lower demand means lower prices. Both concepts are relative, naturally, but the result is "coins that should be more valuable," simply aren't because the series is "out of favor." When it comes to Seated Liberty Bucks, you can decide if these coins are simply too rare 'for their own good.' There should be no question about the difficulties encountered working on a set; for those with the courage to continue the effort, 1996 will be the year (and January will be the month) when many 'holes' can be filled at the various auction venues. The Butterfield•Johnson•Gillio Auction of U.S. & World Coins, Medals & Banknotes, to be held Jan. 30, contains nearly *four-dozen* lots of Seated Dollars; despite this evidence to the contrary, specialists will understand how truly rare these coins are. In addition to an 1838 Gobrecht $1 (J-84) in Pr63 will be found:

B•J•G Auction Seated $1's: 1840 $1 MS62; 1842 $1 MS62; 1844 $1 Pr62; 1845 $1 Pr62; 1848 $1 Pr63; 1849 $1 MS61; 1851 $1 MS63; 1852 $1 Pr63; 1853 $1 Pr62; 1854 $1 AU; 1856 $1 Pr63.

Our *Greysheet* Graphs migrated to Page 10 after our redesign to accommodate expanded coverage, and we are nearly finished with the Silver Commemorative series. For more than a year, as we focused on these interesting coins, we have been hearing comments regarding the continuing availability of decent Commemoratives at prices that seem "too low". While they remain popular with collectors, one dealer pointed out that the better issues suffer from the abundant supplies of the Type coins. There are plenty of Generics to soak up Type demand, and there simply aren't enough collectors pursuing *complete* sets at this time to fully support market levels. Whether prices continue to drop will depend upon future demand, naturally, and if enough numismatists perceive the buying opportunity here.

This Week's Market

MERCURY DIMES: The Mercury Dime market is steady at current levels The high buyers continue to seek properly graded coins without raising their Bids especially for the Full-Band issues.

WALKING LIBERTY HALVES: In the Walker series, you will find that a couple of issues have been discounted while the high buyers have dropped their Bids Yet, the overall series remains steady with a multitude of buyers showing more than casual interest.

DOLLARS: While the Dollar market is still active and several dealers have want lists for most of the better and rare dates, it looks as if the Bids are slightly softer than they have been over the last several months. The high buyers seem to be lowering their buys in an attempt to bargain-hunt. Inasmuch as this seems to be working for some issues, it may be a sign that the near-term direction is headed to a lower base.

PROOF SETS AND MINT SETS: These two charts are fairly steady this week as we have monitored very little discounted selling. The buying we have seen, appears to be very close to current levels, if not right at the posted Bids.

COMMEMORATIVES: The Silver Commem market is not showing any signs of improvement. Granted, there are fewer declines each week, but dealers continue to lower their buy prices. Either this series has a serious virus, or collectors just are not interested at these (even) lower levels. Several dealers are asking, "What will it take to turn this series around?" Gold Commems are mostly stable at reported Bids, with just a few discounted issues. Modern Commems are still active for the most part, but there are several Silver Dollars being discounted.

TYPE: The Type charts appear to be stronger than they have been for a while. Both the Mint State and Proof charts indicate several Bid increases with only a couple of declines. Several dealers report that they need specific issues for their customers, but, they want eye-appealing coins for their money.

GOLD: Mint State Gold appears to be very active at present Bid levels. However, if the coins you have for sale do not meet the criteria of the top four to five Bidders, the next group of buyers may be considerably lower. Also, if your coins are high-end specimens for the grade, they may command more than the listed Bid.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily represent the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder. But will be strengthened on Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay [illegible] Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

$400 GOLD DRIVES ADVANCES
MINT GOLD & EAGLES ON RISE

The Market in Depth

Nothing we like better than a rising Gold market to inspire the troops. We know how much gold sits in dealer inventories - *a lot* - and we know dealer preference for Spot movements: Up, Up, & maybe even Away. Seriously, in an asset based, inventory driven business, isn't it a little overwhelming that such joy can be produced by events over which we have so little control? Dealers don't need to control Spot prices; they only need to profit by them, and that's a lot easier when the direction is Up! We also know that a *sustained* rise in Gold's value would have a profound effect on rare coin prices. With Spot over $400, dealers are actually watching their reporting monitors again! What a lovely present the week before Long Beach - and remember, "sustained" is the key for long-term growth.

The effect of rising Spot is most impressively visible on the Eagles chart. Since these "Bullion coins" are basically bullion, and basically coins, you would expect Spot to have a direct effect on *all* Eagle Gold. And basically, that would be true for large increases. However, with some of these pieces bearing a numismatic premium (based on rarity and demand levels) above their bullion value, sometimes it takes the numismatic increases a little while to catch up with the more immediate Spot increases. As one dealer said, "You can bet that the better date 'Bullion' coins will not become more common just because their Bullion value climbs." That sounds reasonable, as long as you have broad definitions of "common" & "bullion," and unless higher prices bring additional supplies out of hiding. Oh well, we can live with the problems caused by coins increasing in value.

If Spot continues to rise, the effects will continue to be felt on both the uncirculated and the lower grade coins on the Mint Gold chart below. Spot inspired plus signs will usually be found 'to the left' of the MS60 column, numismatic advances to the right add the demand that Bullion rallies seem to inspire from the Retail community, and 1996 could prove to be an interesting year. We'll know a lot more by Long Beach.

This week's Page 10 chart traces the Bid history of the 1936 Wisconsin, our penultimate Silver Commem chart. Based on the recent unpleasantness in the Silver Commem charts, it looks like we are leaving this series just in time. Collectors are usually the first to cheer when Gem populations grow, as it means more collectors can purchase more Gems; the bit about buying them at lower prices, however, remains a two-edged sword.

This Week's Market

MERCURY DIMES: Mercury Dimes are generally unchanged as Bidders maintain their prices at previous levels. We do not see a lot of MS65FB coins trading at current levels. Further, the rare dates will usually command well over the Ask prices when available.

WALKING LIBERTY HALVES: Walkers continue a strong performance at listed Bid levels. Buyers are not willing to post higher Bids without knowing that a specific coin is available. They are more than willing to negotiate for a better-date coin when it is available.

DOLLARS: The Morgan Dollar chart has several minus signs in the MS64 column as a result of discounted sells. The rest of this series is steady at listed Bids with several dealers looking for most of the better issues. Peace Dollars are very steady at today's Bids, with several of the MS65s on the rise. This is one area where the Bids and Asks are consistently monitored on a weekly basis.

PROOF SETS AND MINT SETS: There seems to be an upswing in the need for various Proof and Mint Sets. Most issues are wanted at current levels.

COMMEMORATIVES: There are a vast number of changes this week in the Silver Commem chart. As with most weeks of late, most of the changes are to lower levels. However, there are numerous price increases also. Many of the declines are a result of recent auctions and occur in the newly reported MS66 column. The Gold Commem chart contains several minus signs in the MS65 column; the balance of this chart is mostly steady. Modern Commems are still active at current Bid levels.

TYPE: Despite the fact that there are some declines in the Type charts this week, the multitude of changes seems to be in favor of rising prices. This is the most active these charts have been in quite awhile. Several dealers are attempting to fill specific needs for their clients.

GOLD: At this writing, Gold bullion is over $400 an ounce and the world seems right. Most of the Mint State Gold issues reported in the chart below are solid with several grades even higher than previously reported. Better yet, attitudes are much improved; the higher Gold goes, the more business improves. If Gold can remain over the $400 level, many dealers feel that the overall market will stabilize and begin to grow.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be "slabbed" or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily represent the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by them when they are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

DEALERS ANTICIPATE STRONGER GOLD
HIGHER BIDS SHOULD STRENGTHEN LONG BEACH

The Market in Depth

The Long Beach Coin Show is 'cranking up' as the *Greysheet* goes to press, and dealers this week have been quite vocal in expressing their enthusiasm for the Show, the Auctions, and Gold — and *hopefully* for the overall market. The order of preference depends upon the dealer, but most of them are expecting the newly-found life in the Mint Gold sector to spill over into the overall market, supporting a more broadly-based advance. In decades past, there was a running joke in the dealer community about Gold Spot dropping during Long Beach week; some speculated a correlation with Sunspot cycles, while others could be seen adding up the letters in "Long Beach"... But we digress (and besides, who has the time to add up the letters in "The Long Beach Numismatic, Philatelic, & Sports Card Exposition").

More seriously, the advances in Mint Gold really do seem to be motivating dealers to increase their Bids on other charts. It's much too soon to directly attribute such market movements to rising Spot, but dealers do seem to be viewing it as an important indicator. Some newly placed Bids are moving right through the Asks placed less than two weeks ago, so there is no doubt that this market is moving quickly. If strong demand is felt in the opening days of Long Beach, the enthusiasm and increased levels of activity will carry right through the week-end. Most dealers had a good F.U.N. Show, and they 'could really use' a strong Long Beach to carry them through the Spring.

This week's Page 6 chart, featuring the Bid history of the York Silver Commemorative, marks the end of our long series of charts on this series. The York is a perfect example of the declining spreads between Mint State grades found on many of the Commems; a $30 premium over MS60 buys an MS65. Less than a decade ago, the Gem sold for multiples of the MS60, which makes this an excellent buying opportunity for the collector who appreciates real quality. The slump in Commems, especially in Gem, should have collectors at Long Beach writing a lot of checks. Some might say that we are moving on to new charts just in time, as the recent declines in Silver Commems are leaving many dealers feeling concerned. It is a simple fact that most dealers have multiples more inventory dollars tied up in Gold than they do in Commems, so the prevailing mood has been very positive — but no dealer likes to see any market segment suffer major declines. We don't like bad news either, so next week we'll start touring some of the Mint Gold issues.

This Week's Market

MERCURY DIMES: This series continues its strong pace, especially for the Full-Band issues. As we have stated many times, until prices move higher, it is not likely that many of the rare issues will see the light of day.

WALKING LIBERTY HALVES: Walkers are steady across the chart (MS60 thru MS65). Buyers are consistent with their marketing efforts as they try to purchase all available issues as the needs arise. Many of the better dates and grades do not appear on sell lists all that often.

DOLLARS: The Dollar market was very active this past week. Most of the Bidding took place at current levels. Even the Ask prices seem to be steady with offers to sell remaining constant. There seems to be as much information on the selling side of the sheet as there is on the buying side. This appears to be a very balanced market.

PROOF SETS AND MINT SETS: Proof and Mint Sets are definitely receiving more attention the last couple of weeks. Serious buyers have made it a point to pay at least the current Bids and in the case of Mint Sets, some even higher. Dealers who normally offer "deals" at discounted levels are not as active at this time.

COMMEMORATIVES: The Silver Commem chart shows the usual weakness as several issues have drifted slightly lower. However, there are a few plus signs where dealers are trying to locate specific issues for their customers. Gold Commems are stable with several even higher, especially in the MS65 column. Modern Commems maintain their usual pace and continue a balanced market.

TYPE: The Type market seems to be very solid at current levels. In speaking with several dealers this past week, they are of the opinion that various issues are too cheap; it would not take much in the way of higher Bidding to advance this whole market. Please check out pages 9 & 10 for latest Bids.

GOLD: Mint State U.S. Gold continues to be very solid at current levels. As you will notice, there are numerous plus signs in the chart below. Several dealers have raised their buy prices to meet or beat their competition. In many cases, the Bids have increased beyond the previous week's Ask prices. Long Beach is certain to have a story to report next week.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Asks which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

$100,000 EVERY 4 HOURS & 45 MINUTES!

THAT'S HOW MUCH MONEY THE KING OF CASH SPENT IN 1995! DID *YOU* GET YOUR SHARE?

Spectrum Numismatics International, the buyers of the 1913 Liberty Nickel and the King of Siam Proof Set, spent $42,347,978 purchasing rare coins in 1995.

As you can see, Spectrum has a huge appetite for rare coins. There were 251 working days in 1995. If you figure a work day at 8 hours, that means, Spectrum spent $100,000 every 4 hours and 45 minutes! Spectrum needs to buy *your* coins and is willing to pay *absolute top dollar.*

IF YOU WANT TO GET THE MOST MONEY FOR YOUR COINS... GO DIRECTLY TO THE SOURCE.

The amazing thing about the $42,347,978 worth of rare coins that Spectrum purchased in 1995, is that only $1,693,919 were purchased directly from the public. If you want to sell coins to the *ultimate buyer*, if you want to get as much money as possible for your coins, then shouldn't you go directly to the source? Shouldn't you go directly to the **King of Cash?**

WHAT KIND OF COINS CAN YOU SELL TO THE KING OF CASH?

Spectrum paid $962,500 for the 1913 Liberty Nickel. And they paid $1,815,000 for the King of Siam Proof Set. But the facts are that 91% of Spectrum's purchases are for coins less than $5,000. And 18% of Spectrum's purchases are for coins less than $200.

While Spectrum is the nation's top dollar buyer of ultra rare United States coins, Spectrum is also the major buyer for moderately priced United States numismatic coins. Here's a short list of some of the items that **King of Cash** is currently interested in buying: Original BU bags of Morgan/Peace dollars, BU rolls of Walking Liberty 50C and Mercury dimes, ALL BU gold coins, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 5:00 pm California time and call the Spectrum cash line 714-955-1250 *collect*. Ask for Greg, Thad or Kerry and tell them you have coins for sale. **TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

GOLD MOVES LONG BEACH SHOW
DEALERS PLEASED WITH ACTIVITY

The Market in Depth

It almost seemed like 'old times' at Long Beach; dealers were actually making a point of telling us what 'solid shows' they were having. Public attendance was a little variable, as expected during a five-day Show, but even Saturday's rains couldn't prevent a large retail crowd from attending. A crowd large enough to make parking a problem. A crowd that stayed late enough Saturday night to mess up a few dealers' dinner plans. Oh well, nothing like a bit of a rally to set priorities straight. Based on the crowds that lingered Saturday, the dealers who packed up early missed some serious buyers.

Gold continues to be the driving force behind this market activity, but it would be misleading to think that the public was coming *only* to buy gold. Lots of gold coins were moving, to be sure, but as many were selling to other dealers as to retail transactions. The collectors were out in force, and both gold and rare coins were attracting increased attention at current levels. After back-to-back successful F.U.N. and Long Beach Shows, dealers are feeling pleasantly optimistic about the market for 1996. If the collectors agree that the market is going to head upwards this year, we might see a surge of activity as buyers attempt to 'jump on board.' One dealer put it rather succinctly: "The elevator's been stuck on the ground floor for so long, we almost fear the crush if the collectors become convinced that it's finally on the way up."

With the intensifying demand, dealers are increasingly complaining about the lack of "fresh material." This is an often heard comment, and one designed to elicit some strong opinions. Certainly there are times when the floating supply of coins is more static than at other times, but during 1995 more than $80 million in rare coins entered the marketplace through auctions alone. No mechanism exists for gathering information about all the collections bought by dealers directly, but we are assured *that* number would be staggering. Coins that are priced at current demand levels are moving; coins that are priced too high above current demand remain in the display cases for the time being.

The Long Beach Show was also a magnet for successful auctions: Bowers and Merena logged in nearly $4 million at their Pryor & Shahbabian Sales; Butterfield •Johnson•Gillio's sale hammered down Prices Realized totaling $847,352; total Prices Realized from Superior's 3 sales were reported over $8 million! Heritage's Bullet Sale realized an additional preaudited $917,422.

This Week's Market

MERCURY DIMES: Very little has changed in the Mercury Dime chart. Better-dates are in short supply and buyers maintain their current Bidding strategy. Some late-date issues are offered at discounts, but not much in the way of quantity.

WALKING LIBERTY HALVES: Dealers are still looking for the less-frequently encountered specimens. Of course, these are usually found in major auctions where the competition is quite enthusiastic. Recent auctions verify the need for more supplies to satisfy the hungry collector.

DOLLARS: Numerous changes can be found in the Silver Dollar charts as show information is updated. Most of the changes are increases as buyers try to fill orders. MS63 and higher grade coins are steady at current levels.

PROOF SETS AND MINT SETS: Proof Sets are very active at reported Bid levels as dealers try to fill specific needs. In many cases, buyers will take large quantities. The Mint Set chart is not quite as appealing since there are several minus signs listed. One major dealer has offered a large group at previous Bid levels.

COMMEMORATIVES: The Silver Commem chart is not nearly as negative as it has been for the last several months. Just a couple of declines show up in the Mint State issues keeping this from being quite positive. The XF and AU issues have adjusted according to market reports from Long Beach. Gold Commems are very steady at reported Bid levels. There was a lot of activity in the Modern Commem chart this past week; many of the changes were related to the Gold issues.

TYPE: The Type market is increasingly stronger as shows and auctions indicate. However, buyers are specifically looking for fresh coins with added eye-appeal. Problem coins, or those with unattractive toning will usually trade closer to the next lower grade.

GOLD: As you might expect, with Gold bullion solidifying well over the $400 mark, U.S. Gold coins are in short supply. Everybody wants to buy for inventory and customers. The Long Beach Show produced lots of sales and resulted in shorter supplies. As dealers returned home and began to Bid for more coins, they soon found that higher prices were not successful. European supplies are drying up and available sources are at a premium. If this continues much longer, dealers will have to raise their Bids even further. **Make sure you check current prices before closing any major transactions.**

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

☑ $7.50 PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)

❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.

❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!

❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

Single copy price $4.00 Vol. XXXIV No. 7 February 16, 1996 *. . .a Friday morning report on the Coin Market*

MARKET WELCOMES PLUS SIGNS
ADVANCES NOTED ON OTHER CHARTS

The Market in Depth

Another week, another batch of plus signs on Mint Gold, and another opportunity for dealers and collectors to feel good about the market. With the recent rally in Gold taking Spot above the $410 level, dealers (and their customers) were so excited over the good news that they may have gotten carried away in their bidding. The word *"may"* is critical, because many would argue that the recent rise in prices is but a small fraction of where coins should be headed; less optimistic dealers would argue that coins are worth what they are worth, and a quick rally means a time to sell.

Dealers are in greater agreement that when demand fairly sky-rocketed, it caused a short-term shortage in supplies, which translated into a dramatic jump in prices. The plus signs on our charts confirmed that activity as well. With Gold now looking a little weaker and again hugging the $400 level, it remains to be seen what the longer-term influence will be. We are seeing many Bids being lowered, on 'numismatic' coins as well as the 'bulliony' pieces. While this week's *Greysheet* is still showing plenty of plus signs (especially on Mint Gold), we also know that inter-week Bid levels were even higher while Gold was higher. In addition to the advances, Gold's activity has also spawned a dramatic increase in Bidding activity in most series; we are seeing solid activity near Bid (or at Bid). This means a stronger market, whether any plus signs are produced or not. All of the recent plus signs have helped balance (and in many cases dissuade) the discounters, which could also seriously strengthen the market. We would really like to see a few weeks of Plus signs so we could again write about a market that is "North of Steady!" With the Gold producers again selling into the forward market, this may end up as nothing more than a small blip on the long-term charts.

This week's Page 10 graph looks at the Bid history of the MS60 $10 Types. In this grade, the Eagles are solidly in-between the 'bullion' grades and the 'numismatic' specimens, enjoying the edges of demand from both 'camps.' The numismatic premium that the Indian Eagles enjoyed over the With-Motto Liberty $10s has fluctuated dramatically since 1980, at times reaching well above 100%. After the 1986 peak, the premium declined for eight years before starting to widen again in 1994. With the W/M $10s shooting up in January, it's anybody's guess where the premium will end.

This Week's Market

MERCURY DIMES: Mercury Dimes are virtually unchanged this week. Marketmakers in this area continue to post their buys at today's levels. We have not seen any quantities of better issues coming onto the market.

WALKING LIBERTY HALVES: Bids for Walkers are generally the same as last week. Buyers are looking for the same rare dates at the same levels. Potential sellers are willing to wait as long as they have to for higher prices.

DOLLARS: Dollars—this is an area that is receiving much attention. An increase in the number of Bidders has created higher Bids, especially in grades MS63 and higher. Where Bids have not increased, there are usually several buyers right near current Bids. Common date Morgans have moved higher for MS63, 64, & 65 coins.

PROOF SETS AND MINT SETS: Proof Sets remain in demand, but there are a few issues that are being discounted. Mint Sets are strong at present levels. This appears to be a healthy market.

COMMEMORATIVES: Silver Commems are generally steady this week as buyers and sellers seem content with current Bid levels. Much of the Bidding activity takes place at posted Bids; there have been very few discounted sells this past week. Gold Commems are solid at today's levels, with much of the demand occurring for MS63 and higher grades. Modern Commems continue to find traders within the framework of the listed prices.

TYPE: There is a multitude of Bid increases in the Type charts this week. Dealers are trying to outbid each other for properly graded coins in the specific grades they need. In most cases, the buyers are conservative, not wanting to raise the Bids too much all at once. Where Bids remain unchanged, buyers are still competitive at or near these levels.

GOLD: Despite the fact that Gold bullion has dropped this last week, the majority of Mint State U.S. Gold coins are higher. In fact, most of the increases are much higher. Many of the retail houses are reporting an increase in sales and are willing to pay in excess of the current Bids if the coins are spot-free. Eye-appeal is so important in the long term of numismatics; if you buy quality coins in an up cycle, you will be better off than the buyer who buys low-end coins at a discount.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for **sight seen** coins may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

WHO IS THE KING OF CASH AND WHAT CAN THEY DO FOR YOU?

Spectrum Numismatics was formed in 1991, with a unique vision and a unique financial position. Like most other coin companies, Spectrum Numismatics has a small group of employees - 6; but there's one way that Spectrum is unlike any other company in the coin business. The difference is that cash is never a problem for Spectrum. In fact, Spectrum Numismatics may be the best capitalized rare coin company in the history of numismatics. Spectrum is **king of cash**.

Since 1991, the Spectrum strategy has been very simple. Spectrum felt it could grow its business and increase its market share by taking advantage of its cash resources to always pay the most for rare coin deals that made sense. All it would take to implement this strategy would be world class rare coin knowledge and a ton of cash. Spectrum has both and because of it, Spectrum is becoming the biggest buyer of rare coins in the world.

Who is Spectrum Numismatics? Spectrum Numismatics is world class rare coin experts, unlimited cash resources, and highly efficient staff. The money man behind Spectrum is a name that is known by all in the financial circles of this country, but for purposes of the coin business, it's a name that by choice will remain anonymous.

The president and top rare coin expert behmd Spectrum Numismatics is Greg Roberts. Although only 34 years old Greg has been a major player on the national coin circuit for the past fifteen years. Since that time, Greg has personally purchased $213,285,000 in rare coins. In the process, he has handled virtually every coin in the book. The other world class experts on Spectrum's team combine more than 26 years of experience and over $85,264,000 in purchases of coins.

In just five short years, Spectrum has become the major buyer of ultra rare United States coins. But more than that, Spectrum has become perhaps the largest buyer of all rare coins in all price ranges. Let's talk about major rarities first. Here's a partial list of coins that Spectrum Numismatics has bought at public auction. In other words, this is a list of coins which Spectrum outbid every major United States coin dealer:

Coin	Grade	Date Purchased	Purchase Price
1894-S Barber 10¢	Prf-64	Aug. 1992	$165,000
1913 Liberty 5¢	Prf-64	Oct. 13, 1993	962,500
King of Siam Proof Set	Gem Proof	Feb. 2, 1993	1,815,000
1848-O $10 Liberty	MS-66	Nov. 1994	154,000
1876-CC 20¢	MS-65	Feb. 1995	99,000
1796 $2½ No Stars	MS-65	Nov. 1995	605,000

WHAT'S IN IT FOR YOU?

Not everyone owns a 1913 Liberty Nickel or an 1804 Silver Dollar. In fact, the odds are that you don't own one of those great rarities. But if you're reading this ad, then there is a high probability that you do own some rare coins. You may have some Uncirculated silver dollars, some Uncirculated United States gold coins, some silver commemoratives, some type coins, some rolls of Mercury Dimes or Walking Liberty Halves and maybe even some rarer coins.

If you do, then you should know that Spectrum is the major buyer of that type of material, too. In fact, 91% of all the coins Spectrum purchases, are coins priced under $5,000, and 18% of all the coins that Spectrum purchases. are coins priced under $200 per coin! And you should know that if you have rare coins for sale, Spectrum wants to buy your coins and will probably pay you more than any other coin dealer in the world for your coins.

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale, and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 5:00 pm California time and call the Spectrum cash line collect (714) 955-1250. Ask for Greg or Thad or Kerry and tell them you have coins for sale. Tell them you want to talk to the **king of cash**.

MIXED MARKET MINGLES MOVES
BU ROLLS RETURN BY POPULAR DEMAND!

The Market in Depth

Gold Spot has settled comfortably into the $400+ neighborhood; despite its refusal to go ballistic, it remains comfortably higher than where we were just a few short months ago. Or was that a few short weeks ago? My, how time flies when you're having fun. The advances continue to show on the Mint Gold Type chart, although they are no longer unanimous. It remains to be seen whether Spot's gyrations were 'much ado about anything,' but in the meantime, it has given dealers enjoyable action and profits. In case there were any doubters, this rally has convinced all that a slow, steady climb in Gold Spot would work wonders for the rare coin market. Among the charts also showing nice advances in this week's *Greysheet* can be found the Morgan Dollars, Mint Type, and Proof Type. Even Commems are showing marked improvement.

Due to popular demand, the BU Rolls are back in the weekly *Greysheet*, where they will appear *every other week*. The BU Rolls chart will alternate with the Modern Commemoratives on a weekly basis. We listened to a multitude of dealers with vastly differing opinions. Some felt no need for the BU Rolls, and that Modern Commemorative information was much more critical due to fluctuating Gold prices. Many others felt that the Rolls were needed more than once each month, although perhaps not weekly. After careful consideration, we decided that the numismatic community would be better served by alternating the two charts. This compromise seems to meet the needs of most dealers, and we thank you for all of your valued input.

This week's Page 10 chart again compares a Bid history of the $10 Indian and $10 With-Motto gold coins. Last week's chart, comparing MS60 examples, showed the Indian as consistently and substantially more valuable; in MS63, the picture is not nearly as straightforward. In 1980, the chart starts with the MS63 Indians commanding a 56% premium over the With-Motto Type. Indians remained higher through 1986, but the two Types were even for most of 1987. During 1988, the With-Motto began to assert a premium (averaging 10-20%, but as high as 38%), which continued through Autumn of 1992. That is a big change in fortunes! Since 1993, the two Types have 'see-sawed' the lead, with either coin as likely to show a small premium as a large one. Demand for these solid numismatic coins is always heavy, and in a constant state of flux.

This Week's Market

CENTS THRU HALVES: The common BU rolls of Silver coins are steady as the price of bullion is over the $5.70 mark. However, many other rolls (Roosevelt Dimes and Washington Quarters mostly) are suffering from discounted sales and indicate modest declines. On the bright side, you will notice some plus signs in the late-date issues.

MERCURY DIMES: A very light week in the Mercury Dime chart as most buyers are consistent in their expectations. Full-Band issues are active and regular issues are slightly less so.

WALKING LIBERTY HALVES: Walkers continue to be a very solid market. If it isn't one Bidder leading the market, it is another. There are usually several dealers actively pursuing most all dates in MS63 and higher grades.

DOLLARS: Dollar Bidding is a little quiet this week, although most of the activity appears to be at current levels. Very little discounting has been monitored on the Teletype systems. Peace Dollars are very active at the current Bid/Ask levels as buyers and sellers post prices on both sides of the market.

PROOF SETS AND MINT SETS: Activity has increased in these two charts as several dealers try to fill specific needs; they will pay Bid for the dates they need. Last week we listed two sets incorrectly due to typos. They were the 1991-S Prestige Proof Set and the 1980 Mint Set. They should have been $45/$49 and $4.95/$5.20, respectively.

COMMEMORATIVES: Silver Commems are beginning to look a little better, especially in the MS66 column. Several plus signs can be seen in this chart while the number of declines has diminished. The Gold Commems are steady at listed Bid levels. Modern Commems will appear every other week.

TYPE: Type coins remain generally steady at posted Bids, although we have noticed a few more minus signs this week. Dealers are very specific in their requests as their customers will usually not accept something other than what they demand. Most of the changes are slight in either direction.

GOLD: Most of the Mint State Gold remains very active at current levels. Numerous issues have increased as buyers fill orders. The retail houses have orders to fill and are in need of certain issues. A few of the more common issues are available at discounted prices and declines are noted.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worthless. [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem full steps" rolls, when available, bring higher prices. In the Roosevelt series, "red bands" rolls are worth more than listed prices—particularly the pre 1941 issues. Washington rolls—dull or "put together" brings lower prices. Some early Franklin (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker [illegible]

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Gold and Silver Eagles.

GOIN' STEADY WITH THE MARKET

COLLECTORS STILL IN LOVE WITH COINS

The Market in Depth

This is a market that collectors can love. Most prices for "collector coins" — those graded below MS65 — remain steady. There is depth to the Bidding at current levels, and coins are changing hands. Support for the Gems is a little more sporadic, but even here can be found real pockets of demand. Collectors don't want to see prices rise too quickly, as they can be priced out of the market; on the other hand, experienced collectors don't like falling prices, as that means their collection is depreciating in value. Like Goldilocks, collectors prefer a market that is 'just right'; a market that is steady with values holding and with lots and lots of coins to paw through! Such a market means collectors can focus on their collecting, and not on their financial position.

And that is just what they will find at the ANA Early Spring Convention to be held in mid-March in Arizona at the Tucson Convention Center. Dealers, as well as collectors, are looking forward to the Show as a prime source for new material for Spring sales. In addition to a strengthening bourse, Heritage Numismatic Auctions will be presenting both a Bullet Sale and one of their major Signature Sales. As you might expect, their 1996 Early Spring ANA Sale catalogue has something for every numismatist. Want to buy expensive gold? Try an 1892 $2.50 in Pr63; an 1873 $3 Open 3 in Pr64; an 1883 $3 in Pr64; an 1887 $3 in Pr62; an 1879 $4 Flowing Hair in Pr64; an 1873 $10 in Pr63; an 1884 $10 in Pr64; an 1891 $10 in Pr65; an 1890 $20 in Pr64/65; an 1891 $20 in Pr62; or a 1909 $20 in Pr64. Want to buy something really snazzy? How about the 1911 four-piece Gold set in Matte Proof67?

There are also lots of rare-date and branch-mint gold coins included, many of which are in high-grade. See box for examples:

Of course, if you are inclined towards purchasing only the finest quality gold, the Early Spring ANA Sale will entice you with such lots as an 1853 $1 in MS69; an 1851-O $2.50 in MS65; an 1889 $3 in MS65; an 1895 $10 in MS66; a 1901 $10 in MS66; a 1908 $10 in MS65; or a 1907 $20 High relief in MS65. The selection in copper and silver Type coins is just as exciting.

This Week's Market

CENTS THRU HALVES: As we pointed out last week, the BU Rolls chart will be listed every other week.

MERCURY DIMES: There are several new plus signs in the Mercury Dime chart this week as one strong buyer pushes prices just a little higher. Most of the activity occurs in the Full-Band columns.

WALKING LIBERTY HALVES: Walkers are steady at posted Bids; most buyers are willing to pay current levels, but do not want to advertise their highest buy price. In the early issues, sellers will usually want more than the Ask prices.

DOLLARS: The Dollar chart remains very active as buyers and sellers try to get together. There seems to be as many sellers at the Ask levels as there are buyers at the Bid levels. This paints a very healthy picture.

PROOF SETS AND MINT SETS: Proof and Mint Sets are extremely strong at current levels. Various buyers are looking for several different issues and are willing to pay Bids for quantities of most issues.

COMMEMORATIVES: It's a little too early to tell whether Silver Commems have reached a bottom or not. The last couple of weeks, MS66 issues are rising and the rest of the market is steady; thus, the overall picture is one of improvement. It would be nice to see the rises carry over to the lower grades. Gold Commems are holding steady at today's Bids and several buyers are in this market. Modern Commems and Eagles are listed on Page 3 this week and will run every other week. This market looks pretty active, but falters when Gold bullion drops.

TYPE: If you judge the Type market by the number of plus and minus signs, you might get the wrong impression. There are a few more minuses than pluses this week, but the difference is that 90% of the unchanged issues are in demand at current Bids. This is a strong indication that the overall market is just waiting to take off.

GOLD: The number of discounted sellers has increased over the last ten days; thus, you will find an increase in the number of minus signs in the U.S. Gold chart this week. Many of the issues are steady at present levels, however, the dealers willing to pay in advance of the market has rapidly diminished.

A weekly comparison of certified coin Bid levels relative to CDN sight-seen Bid levels (as 100%) sampled from 10 U.S. coin series (2 grades each; avg. is for the 20 ratios). All %'s relative to CDN as 100%. Data from latest issue of CDN, Monthly Supplement, & Certified Coin Dealer Newsletter (sight-unseen Bids). Refer to CCDN for specific certified Bid levels. ANACS Bids & green label PCI Bids are for slabbed coins only. INS bids are for blue certs. The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

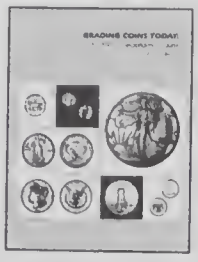
Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.



MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

***Please Note:** This page alternates weekly with Page 3A which contain BU and Proof Rolls.

Tells why more people are turning to P C I

- ❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.
- ❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)
- ❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.
- ❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!
- ❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

GOLD SLIDING, SILVER COMMEMS RISING
SHIFTS IN MOMENTUM RIVET MARKET

The Market in Depth

Imagine a coin dealer who took the month of February off for an extended vacation. You know, the kind of vacation you keep promising yourself but never take: to really get away from it all! Shades of Rip van Winkle! Our 'lucky' dealer would have come back to a market that was radically different in terms of leaders and laggards, and yet still familiar in terms of overall steadiness. All that in just one month! In the February 2, 1996 *Greysheet*, dealers were still anticipating stronger Gold prices, and accepting "the inevitable" in declining Bids for Silver Commemoratives. A month later, and we find ourselves a couple of weeks into U.S. Gold sliding and Silver Commems rising! A phrase from the bourses of the 1970s comes to me: "Who would have thunk it?"

The declines in prices for U.S. Gold coins are understandable enough. Rising Spot drove the prices up with excited demand; declining Spot cooled the fires of demand, encouraging Bid levels to slide rapidly. While the rising Spot prices seemed to be motivating much of the rest of the market to higher levels of activity and pricing, that was certainly not the case in Silver Commems. Just as there was no relationship between Gold's pluses and Commem's minuses, we can't find any dealers proclaiming a relationship between the converse actions. Put another way, the advances in Silver Commems have everything to do with collector and dealer demand for Silver Commemoratives, and nothing to do with Gold coins or Gold Spot.

Morgan Dollars have been strengthening over several months, although much of that strengthening was at (or just below) current Bid levels. While this kind of strength was producing relatively few plus signs, it provided a firm foundation on which increases would later appear during the mini-rally motivated by Spot's increase. While Gold has retreated, the Morgans (and Peace Dollars as well) are continuing to show stronger demand. Demand in the specialty series also seems to fluctuate from week to week. First one series will 'be hot', and then another. This week it was the Walkers' turn.

Most of the other charts are showing a balanced mix of plus and minus signs, in keeping with a steady market. BU Rolls, in this week's *CDN*, is showing a couple of dozen declines along with a sprinkling of advances. This market segment exhibits the signs of a vital market with its constant small adjustments.

This Week's Market

CENTS THRU HALVES: The BU roll market has been very active the last couple of weeks; however, most of the changes this week are negative in nature. There seem to be more sellers than buyers at present and potential sellers are willing to accept just a little under previous prices.

MERCURY DIMES: Higher Bids are registered on a couple of the Full Band Mercs, but, for the most part, this series remains steady.

WALKING LIBERTY HALVES: We monitored several increases in the Walker chart this week as buyers are willing to offer just a little higher Bid in order to purchase the coins they need. For the early rare dates, this is usually not enough to get the job done.

DOLLARS: Common date Dollars (both Morgan and Peace) continue to receive competitive Bidding at previous Bid levels. Large quantities can be moved at these prices. Better dates remain steady at today's levels. Ike Dollars and Anthony Dollars are very solid at present Bids, with several dealers attempting to accumulate large quantities.

PROOF SETS AND MINT SETS: These two charts are about as active as any numismatic series. Numerous Bidders are vying for available supplies of most issues. Even when discounted "lots" become available, they usually sell very quickly.

COMMEMORATIVES: Silver Commems are getting a lot of play this week. Higher Bids are being reported for several issues in various grades. The MS66 issues are still very active at current levels; this series is very strong all of a sudden. Gold Commems remain solid at posted Bids. Modern Commems continue to receive lots of Bidding activity.

TYPE: The majority of the Type market is holding steady this week as buyers maintain their current Bids. In just a few cases, Bids have fallen slightly on some of the more common issues.

GOLD: The weakness in Gold spot has definitely hurt the chart below. The major marketmakers, in U.S. Gold, have lowered their buy prices and sellers are attempting to move merchandise at discounts of previous levels. Some dealers are trying to maintain their previous Bids by demanding spot-free coins.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise dull rolls are worth less than the prices listed, while original rolls with deep red color and sharp strikes may bring premiums. In the Jefferson series, some of the rolls in the late 50's tend to be dark; these bring lower prices. "Gem full steps" rolls often command premiums. Original bands/ rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls, dull or "pat another" brown rolls, prooflike rolls, and original bands/rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Eagles (Gold and Silver).

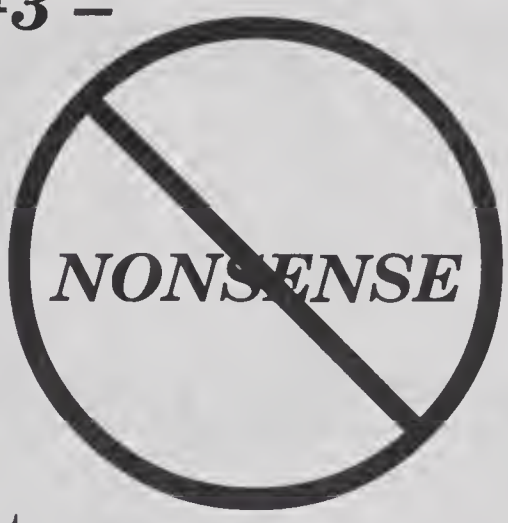
There is a Multitude of Dealers To Choose from when Selling. . .



. . .But one stands out from the others For Three Very Good Reasons.

Reason #1 – Competitive prices consistently paid on all grades and types of U.S. Gold as well as a wide variety of Non-Gold U.S. Coinage.

Reason #2 – Commitment to providing the ultimate in service. Your business, large or small, is our first priority. While some prefer to talk, we'd rather listen. Tell us what your requirements are, and we will always endeavor to go one step beyond them to achieve your total satisfaction.

Reason #3 –

We believe it is important to know and trust those with whom you choose to do business. If you've never done business with us before, give us a try. Our many satisfied customers have discovered why the not so obvious choice has become the best choice the informed dealer, collector, or investor can make when selling.

COLLECTORS FOLLOW SIGNS FOR BUYING
GOLD STILL REFLECTING DECLINES

The Market in Depth

Many years ago, dealers used to share the doctrine (half-jokingly, half-seriously) that the *best* coins to buy for investment were the ones in *their* inventory. In a rising market — especially in a real boom — it really didn't matter which coins investors bought as long as all coins were rising. Collectors, however, approach the market differently, usually focusing on two or three series; since their Want Lists are always longer than their wallets are wide, *relative* prices help decide the next purchase. While the current market remains steady overall, there is tremendous variation in individual charts. Collectors seeking to maximize their purchasing power know that they *should* buy when one of their series is showing depressed prices (and being collectors and not traders, they probably will *not* be selling short-term when series are hot). Since we see dealers buying for their customers during hot markets, it proves how difficult being a 'contrarian collector' can be! Two-thirds of the declines in this week's *Greysheet* can be found on just four charts — will that attract buyers or more sellers? Stay tuned.

This week's Page 9 chart compares the $10 MS64 Liberty With-Motto with the $10 MS64 Indian. Two very attractive coins, and found in many a Type collection. We've noted before that this is a very interesting pair to contrast. In the circ grades, the Indian is much more valuable, while in the 'Super Gems,' the With-Motto becomes the star. Between MS63 and MS65, the pair move in tandem much of the time. The numismatic phrase 'much of the time' means opportunity for numismatists who feel confident about anticipating future moves. Currently, the With-Motto Type has held onto most of its gains, while the Indian is resisting further advances.

Stack's has just concluded their March 6 Auction Sale. We will not be disparaging them by noting that this was one of their smaller sales; they have enjoyed their fair share of "mega-" and "monster-sales" over the past few years. These smaller sales have formed the backbone of their unparalleled decades of success, offering numismatists an attractive selection of material with the possible advantage of being easier to budget for! Among the highlights:

1821 Large Cent	Pr62 B	$7,425	1797 $1 9x7	AU50	$4,620
1838 Large Cent	Pr63 B	$7,150	1860-C $2.50	AU50	$2,420
1914-D Lincoln	MS65	$4,400	1885 $3	MS64	$7,150

This Week's Market

MERCURY DIMES: Mercury Dimes are generally steady at today's Bids; there are several increases in the later issues for MS65FB specimens. The earlier issues are active also, but higher Bids are not forthcoming at this time.

WALKING LIBERTY HALVES: Walkers continue to be active across the board. Dealers have want lists that contain coins in MS60 up to and including MS65. They want early dates and late dates. The one thing they all have in common, is that they must be properly graded; buyers will not settle for below average coins for the grade.

DOLLARS: The Dollar charts are solid with Bidding activity. You may not see any increases, but dealers are willing to pay the posted Bids for the majority of issues. This includes circulated specimens as well as Mint State ones. There is very little discounting taking place at this time. Occasionally, borderline coins will be offered at discounts of the upper-end price. This will have no influence on the properly graded issues with their respective Bids.

PROOF SETS AND MINT SETS: Although you will see several declines in the Proof Set chart this week, the overall market is steady. Most of the issues are active at today's Bid levels. Where minus signs appear, the amount of the drop is very slight as sellers try to move excess inventory.

COMMEMORATIVES: Constant Bidding activity is taking place for Silver Commems; the majority of Bids are at, or near current levels. The few declines are very minor as sellers try to move specific issues in order to reduce inventories. Gold Commems are mostly solid at present Bids, although we are finding a few discounts. Modern Commems and Eagles are undergoing numerous adjustments; the majority of changes are a result of bullion declines. There are still several dealers who operate in this area on a consistent basis.

TYPE: The Type market remains very solid at current Bids as numerous dealers post buys at today's levels. In a few cases, there are higher Bids for specific issues that are needed for want lists. Keep in mind, buyers will not accept low-end coins at their higher Bids. They want coins with eye-appeal.

GOLD: Mint State U.S. Gold continues to receive a lot of attention on the Ask side of the market. Many of the offers to sell coins are discounts of the previous Bids. On the other hand, we are seeing more Bids of support at present levels this week. Several dealers feel that this is paving the way for a solid foundation for the near-term Gold market.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contain BU and Proof Rolls.

❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)

❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.

❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!

❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

COLLECTORS: STEADY EYE ON STEADY MARKET
DEALERS: STEADY EYE ON INVENTORY & CUSTOMERS

The Market in Depth

If you are looking for a large number of advances or declines, you'll find this week's market rather boring. If you're waiting for Gold to go ballistic and ignite the market, you won't find it this week. If you're looking for discounted selling action, you won't find any severe declines either. But if you are looking for quiet strength, the kind that reflects Bidders at or just-below current high Bid levels, then this is the market for you. Oh, we have advances, but not of the flashy variety. Quiet strength, with more selective advances than discounted sells. The kind of market where a buying decision is based on the quality of the coin and the price sticker, without much thought given to where the market will be next week. The kind of market that finds collectors thinking about the next addition to their collection.

The steady nature of the market (excepting, of course, Gold's gyrations since the beginning of the year) has given dealers the opportunity to focus on their customers. That means active solicitation of Want Lists and collection development, and actively searching the marketplace for coins that can rapidly be placed into collections. It also means that dealers will want to maximize the effectiveness of their inventories, which can mean a more ruthless appraisal of a coin's potential. As the customers are looking harder at coins before making a purchasing decision, so too are the dealers. When buying for inventory, with an uncertain turn-over period, the coin needs to look right and be priced right. This is putting a lot of pressure on the wholesalers who preferred to 'flip' entire collections, as buying dealers desire to be much more selective.

This week's Page 10 Graph looks at the $10 MS65 With-Motto Liberty and Indian Types. Since 1980, the Indian has usually maintained a premium over the With-Motto Liberty Type — a premium as high as $2,800. In fact, during the decade of the '80s, there were only three weeks where the *Greysheet* reflected a higher Bid for the With-Motto coin. That all changed in the Spring of 1994, when the With-Motto Bid rose above the Indian and stayed there through the end of the year. The Indian reclaimed the lead during 1995, but at year's end (and continuing through January, 1996), the With-Motto again surged ahead. At its highest, the With-Motto maintained a $750 premium over the Indian — which translates loosely into a $3,550 swing in premiums.

This Week's Market

CENTS THRU HALVES: The BU roll market appears fairly active at current levels, however, most of the changes are adjusting downward. The majority of the declines are in the late-date issues. Most of the Silver Washington Quarter rolls are attracting new buyers.

MERCURY DIMES: Several increases can be found in the Mercury Dime chart this week. Buyers are still more interested in Full-Band issues.

WALKING LIBERTY HALVES: The Walker chart reveals very few changes as buyers maintain their status quo Bidding. This is a very strong series, but very few rarities are coming onto the market.

DOLLARS: The Dollar market is one of the most balanced areas of numismatics at this time. Almost everything in MS63 and higher appears on a want list somewhere; most buyers are willing to pay the current Bids. To balance the buys, there are a whole slew of dealers who are offering to sell more than half the Morgan issues at the Ask price or just a little higher. In the case of the Peace Dollars, we have located sellers of about 90% of the MS63-65 issues at, or around the Ask price.

PROOF SETS AND MINT SETS: Proof and Mint Sets are extremely steady with active buyers at current Bids. Several dealers are looking for large quantities of specific issues, while other dealers are just trying to replenish missing stock.

COMMEMORATIVES: Silver Commems continue to show improvement. We have monitored several more increases in the MS65 & 66 columns as buyers try to locate the higher quality issues from $400 to $1500. Gold Commems are attracting several buyers for MS60 and higher grade coins.

TYPE: The Type market is very solid across the board. There are buyers for almost anything in Proof and Mint State 60 to 65 material. Most buyers are trying to maintain current Bid levels, although others are more than willing to increase their Bids if the quality of the coins warrants.

GOLD: There is a lot of activity in the U.S. Gold chart this week. While most of the changes are declines, the good news is that most issues are trading at the new levels. Several of the issues that dropped last week, remain steady this week. It looks as if the declining issues are finding support at the new Bids.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be "slabbed" or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices. "gem, full step" rolls when available bring higher prices. In the Memorial series, "red bands" rolls are worth more than listed prices – particularly the pre-1941 issues. Washington rolls – dull or "put together" bring lower prices. Gem full step rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker [illegible]

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Eagles (Gold and Silver).

MARKET STRONGER THAN RECENT APPEARANCE

BOWERS AND MERENA SALE REPORTS OVER $2.4 MILLION

The Market in Depth

"Impressive" is the best way to describe the just completed Suburban Washington/Baltimore Coin Show. This is the up and coming show on the East Coast. Lots of dealers, lots of public—buying and selling coins. Add to this activity, the Bowers and Merena, Sebring and Garbe Sale, and you have all the ingredients for a successful coin show. It also helps to have a central location that draws from dealers and the public who drive up to 3 to 4 hours away. If all shows advertised and drew this kind of attendance, the market would surely be much more positive.

According to a majority of the dealers attending the show, the market is "just fine". No, you may not see a lot of plus signs (that's because most dealers don't want to reveal how much they are actually willing to pay for fear of having to pay even more), but the health of the market has improved noticeably.

As bleak as some dealers felt the market was, we were reminded recently that in 1982, there were no buyers at any price. Everybody was a seller. Today, almost every dealer will buy coins at some level. Raw coins are especially active at current levels. If collector coins are offered at today's prices, and they are problem-free, they will sell quickly. Even the ones with minor distractions will find a level and move on to a new home.

Every session of the Bowers and Merena Sale appeared to be well-attended. There was a good mix of dealers and collectors in the auction room competing against a vast array of mail bidders. Most of the lots were actively Bid, with multiple bidders trying to outbid each other. Prices realized for the 3500+ lot sale was about $2,450,000. Highlights include:

DENOMINATION	GRADE	PRICE REALIZED
Maryland Lord Balt.	XF	$8,500
1793 Chain Cent S-2	VF30	$9,900
1795 Bust Half O-125	AU53	$9,075
1919D Walker	MS64	$14,300
1893 Dollar	Pr67	$15,400
1901 Dollar	MS63	$7,975
1906 $2 1/2 Gold	Pr65	$15,400
1926D $20 Saint	MS62	$8,800

This Week's Market

MERCURY DIMES: Bids for Full-Band Mercury Dimes are consistent this week as buyers continue their search. We may see one of the rare issues trade occasionally, but it will usually bring over listed Bids.

WALKING LIBERTY HALVES: Several plus signs have crept into the Walker chart this week. Buyers are increasing their visibility as they try to locate some of the more elusive issues. Most of the increases are in the teens and twenties.

DOLLARS: If there was one series that almost all dealers were interested in this past week, it was Silver Dollars. As we stated many times, dealers may not post higher Bids, but they will buy properly graded coins at current levels. This goes for Morgan and Peace Dollars in MS63 and higher.

PROOF SETS AND MINT SETS: Proof and Mint Sets are very active this week. You will notice that there are several declines in the Proof Set chart, but these issues seem to be trading. The 1961-64 sets appear to be available in quantity. Mint Sets are moving higher from 1975 to 1995. The 1996 Proof Set is now listed at $10.75/$11.

COMMEMORATIVES: Silver Commems are looking a lot stronger these days. At the Washington/Baltimore Show, many dealers were talking about how cheap they are. Several dealers are willing to buy large quantities of most issues at current levels. They are very interested in accurately graded coins that sell for under $200 in MS64 or 65. Gold Commems were on several want lists at the show; most dealers will pay today's Bids or higher. Modern Commems continue to trade among those dealers who have a ready market. The 1995 10th Anniversary (W) Silver Eagle is very strong at $350 Bid.

TYPE: Type coins were very strong at the Show. Numerous dealers are buying most issues if they are priced according to their actual grade. Coins with problems, or, darkly toned issues may be difficult to sell. There are several plus signs on these Type charts.

GOLD: U.S. Gold is generally steady at current levels. We found many buyers at the Show, who were willing to pay even higher than listed Bids for coins that had "no spots". You will notice in the chart below that Bids are higher on several issues. There are still a few declines where dealers are willing to discount below previous Bids.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices Full strike with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

***Please Note:** This page alternates weekly with Page 3A which contain BU and Proof Rolls

APRIL 15th

A DAY EVEN THE KING OF CASH HATES

But don't despair...

Help is on the way...

It used to be that the only
things that were certain
in life were death & taxes...

Now there's a third thing
you can be sure of...

A KING OF CASH BANK WIRE!

If you need money for taxes, there's one place to get it and get it fast. There's one rare coin firm that is so desperate to buy the coins it needs for its clients that it is willing to send you a **bank wire the day you sell your coins.**

What firm is willing to help out during tax time? Spectrum Numismatics...buyers of the 1913 Liberty nickel, King of Siam Proof set and countless other numismatic rarities.

Last year, Spectrum spent $42,347,978 purchasing rare coins. That's $168,717 every working day! Because Spectrum has such a huge appetite for rare coins, they are offering a special **APRIL EMERGENCY TAX RELIEF PLAN.** Simply put, any non-coin dealer who sells Spectrum any coins during the month of April can, at their request, receive a bank wire the day they sell their coins to Spectrum.

IT'S EASY TO SELL COINS TO SPECTRUM

Spectrum paid $962,500 for the 1913 Liberty nickel. And they paid $1,815,000 for the King of Siam Proof Set. But the facts are that 91% of Spectrum's 1995 purchases were for coins less than $5,000. And 18% ($7.6 million in 1995) of Spectrum's purchases were for coins less than $200.

While Spectrum is the nation's top dollar buyer of ultra-rare United States coins, Spectrum is also the major buyer for all United States numismatic coins. Here's a short list of some of the items that the King of Cash is currently interested in buying: ALL gold coins, original BU bags of Morgan and Peace Dollars, BU rolls of Walking Liberty Halves and Mercury Dimes, pre-1916 type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9 a.m. and 5 p.m. California time and call the **Spectrum cash line 714-955-1250 collect**. Ask for Greg, Thad or Kerry and tell them you have coins for sale. Or, if you prefer, you can fill in the coupon below and they'll call you.

The P C I Capsule . . .

☑ $7.50 PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)

❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.

❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!

❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

COMMEMS AND DOLLARS REVEAL HIGHER BIDS
ELIASBERG COLLECTION TO HIT AUCTION BLOCK IN MAY

The Market in Depth

Pinch me! It feels just like Christmas. The weather was cold and the lights were glistening. The event? A private viewing of coins from the next chapter of the Louis E. Eliasberg, Sr. Collection. Richard A. Eliasberg has selected Auctions by Bowers and Merena, Inc. to offer this segment in their May Sale.

If these coins don't knock your socks off, you might as well collect baseball cards or whatever... If these coins don't draw the attention of the "rich and famous," non-traditional coin buyers, then we might as well forget the advancement of numismatics into the 21st century. If we can't spur new interest and gain a myriad of new collectors, then, well, we may just be relegated to a wholesale industry with spurts of occasional retail.

Seize the opportunities to educate potential new clients; contact your local newspapers and offer to write a story for them concerning the greatest, most complete coin collection of all-time. If you need background info for an article, or, a catalogue, please contact Bowers and Merena directly. If we get positive media attention, this sale (and any subsequent ones) should be a big boost to every dealers' business. How you handle it, will be entirely up to you.

Well, get in, sit down, hold on, and you know... The ride should be tremendous. It's like a new attraction at Disneyland (Disneyworld). Everybody wants to experience the elation firsthand. Just why are we so excited? Many of the coins we viewed are so original that they have only traded hands once or twice in their history. That's right! From the Mint to one middleman, then directly into the Eliasberg Collection. Several of these coins have only been viewed by less than 10 people in the last 40 years. Usually a long pedigree is instrumental in marketing rarities. In this case, one short pedigree...ELIASBERG.

From time to time, we will mention some of the coins we viewed. Which were our favorites? How does "all of them," strike you? The 1804 Dollar is absolutely the loveliest one we have seen; it is quite possibly the finest known. Its original toning is even on both sides and reveals flawless surfaces. The 1913 Liberty Nickel is always romantic. Louis E. Eliasberg Sr., had his choice of specimens of this celebrated issue and this is the one he selected. The 1894S Barber Dime is quite superb. It has even colorful toning around the periphery; holding this coin makes you tingle. Stay tuned!

This Week's Market

CENTS THRU HALVES: It looks as if more buyers are interested in accumulating BU rolls; there is a long list of Bid increases this week. You will also see some declines, but this is typical as dealers try to sell excess material.

MERCURY DIMES: Solid Bidding activity is the norm for Mercury Dimes; Full-Band issues are the most sought after. Late-date issues in the '40s are receiving lots of attention; some MS65 Full-Band issues are higher this week.

WALKING LIBERTY HALVES: Walkers are one of the most sought after series in all of numismatics. The early issues are especially strong as buyers compete for the low pop issues. In many cases, there are but a few coins graded, and there are at least twice as many collectors in pursuit of these coins.

DOLLARS: The Dollar market is so consistently steady that it makes you wonder why prices aren't moving substantially higher. Most dealers report that their astute customers are willing to pay a reasonable price just above current levels, but they would balk at an increase in wholesale Bids. This is because they feel that the market would not support the higher levels and they might falter again due to a lack of confidence in the overall market.

PROOF SETS AND MINT SETS: Despite the fact that there are numerous minus signs this week in the Proof and Mint Set charts, this is a very active market. Where declines have occurred, it looks as if there are buyers at these new levels.

COMMEMORATIVES: There is a marked increase in Bidding activity for Silver Commems. In fact, there are buyers of some raw coins at higher levels than some of the slabbed coins are trading for. This tells us that the sellers are not searching as efficiently as they should be for the higher buyers. Gold Commems are mostly steady at current levels with just a few declines due to recent discounted trades.

TYPE: Type coins continue on a steady path. There are buyers for most issues and they are willing to pay current Bids or just a little higher. A few issues reversed this week as buyers lowered their Bids and potential sellers lowered their Asks.

GOLD: Mint State U.S. Gold is mostly steady with several increases this week. There seem to be more buyers than sellers for most issues. Some of the more common issues are being discounted slightly as sellers try to move excess stock.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and, early semi-prooflike rolls, in the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices. "gem full steps" rolls (when available) bring higher prices. In the Memorial series, early "full bands" rolls are worth more than listed prices – particularly the pre-1961 issues. Washington rolls – mill or "pan lightness" bring lower prices. Gem full steps, Washington rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Eagles (Gold and Silver).

you can be sure of...

A KING OF CASH BANK WIRE!

If you need money for taxes, there's one place to get it and get it fast. There's one rare coin firm that is so desperate to buy the coins it needs for its clients that it is willing to send you a **bank wire the day you sell your coins.**

What firm is willing to help out during tax time? Spectrum Numismatics...buyers of the 1913 Liberty nickel, King of Siam Proof set and countless other numismatic rarities.

Last year, Spectrum spent $42,347,978 purchasing rare coins. That's $168,717 every working day! Because Spectrum has such a huge appetite for rare coins, they are offering a special **APRIL EMERGENCY TAX RELIEF PLAN.** Simply put, any non-coin dealer who sells Spectrum any coins during the month of April can, at their request, receive a bank wire the day they sell their coins to Spectrum.

IT'S EASY TO SELL COINS TO SPECTRUM

Spectrum paid $962,500 for the 1913 Liberty nickel. And they paid $1,815,000 for the King of Siam Proof Set. But the facts are that 91% of Spectrum's 1995 purchases were for coins less than $5,000. And 18% ($7.6 million in 1995) of Spectrum's purchases were for coins less than $200.

While Spectrum is the nation's top dollar buyer of ultra-rare United States coins, Spectrum is also the major buyer for all United States numismatic coins. Here's a short list of some of the items that the King of Cash is currently interested in buying: ALL gold coins, original BU bags of Morgan and Peace Dollars, BU rolls of Walking Liberty Halves and Mercury Dimes, pre-1916 type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9 a.m. and 5 p.m. California time and call the **Spectrum cash line 714-955-1250 collect**. Ask for Greg, Thad or Kerry and tell them you have coins for sale. Or, if you prefer, you can fill in the coupon below and they'll call you.

CENTRAL STATES JUST AROUND THE CORNER
WALKERS, DOLLARS, AND TYPE REPRESENT SOLID MARKETS

The Market in Depth

Many dealers are looking forward to the upcoming Central States Convention, in Kansas City, Missouri. The show begins on the 25th of April with a PNG Day and runs through the 28th. Heritage will host a Bullet Sale on the 25th & 26th. Many dealers feel that this is a good central location and it should draw from a large audience of collectors. As has been typical of most shows this year, the collector market is very satisfying. Key date coins, in almost all series, are usually quick sellers; especially if they are priced within the Bid/Ask levels.

When we examine dealer want lists, much of the demand revolves around Walkers, Dollars, and Type. As much as some dealers like to specialize in particular areas, it is necessary to participate where the action is heaviest. That is not to say that some dealers aren't doing more business in other series, but it would be self-defeating if they ignore areas of prime interest.

Walkers, Dollars, and Type are enjoying much demand due to the fact that many dealers feel that they are priced at very reasonable levels. If you compare the market of 4-5 years ago, you will find that some issues are selling at heavy discounts of these previous prices. If you chose to hold onto certain issues that were once priced at $1,000, for example, you might find that you could purchase the same coin today at $250 to $300. Furthermore, your downside risk is minimal in today's market.

This risk/reward ratio is probably the most favorable factor in marketing coins today. Knowing the potential value coins could regain if they approach previous levels, is the main reason most coin dealers pursue their chosen field of endeavor. Without this hope and knowledge, the numbers of numismatists would vanish even quicker than we have seen in the past five years.

We promised more highlights of the upcoming Bowers and Merena Sale of the Louis E. Eliasberg, Sr. Collection. The sale will take place in New York City, on May 20-22. In just the two short weeks since we viewed some of the highlights, we have heard from many dealers expressing their joy and excitement; their anticipation is motivated and so is their customers. The 1873CC Dime without/arrows, is UNIQUE. It is one-of-a-kind; the purchaser is sure to have plenty of competition for the right to say, "I have the only one." The 1885 Trade Dollar will be judged as perhaps one of the prettiest coins in the entire collection. Its mirror surface shows-off purples and blues; it makes your heart "pitter-patter". The 1792 Half Disme appears virtually perfect; it makes other, lesser quality examples seem—just that.

This Week's Market

MERCURY DIMES: Activity remains consistent in the Mercury Dime series. Early issues are in strong demand at current levels; non-bands, as well as Full-Bands. In the later issues, demand is strong for the Full-Band issues, although the more common non-band dates are not as active.

WALKING LIBERTY HALVES: You will not find a lot of changes in the Walker chart this week. The usual buyers are Bidding the same prices as they have been for the last several months. Buyers are still reluctant to Bid any higher as they know it will just cause the potential seller to raise his asking price.

DOLLARS: The Silver Dollar series (both Morgan and Peace) are as solid as any series in numismatics. It seems as if nearly every dealer has Silver Dollars on their want lists. Just about anything in MS63 and higher has a multitude of Bidders at current levels. In some cases, especially in MS65, dealers are willing to pay a little over Bids to pry loose some of the specific issues on their lists.

PROOF SETS AND MINT SETS: While there may be a few declines in the Proof Set chart, the majority of sets are steady at reported Bids. There are several buyers who continually look for most all issues. Mint Sets are mixed with most dates in demand.

COMMEMORATIVES: Silver Commems remain a very "active" series; MS65 & 66 issues are the most consistently Bid as several dealers are looking for properly graded coins. Lower grade coins are steady at present levels. Gold Commems are solid with a healthy mix of plus and minus signs. Modern Commems are mostly steady with a few declines (moderately lower) in the Silver Dollar columns.

TYPE: There are lots of adjustments in the Type charts this week, as dealers actively buy and sell from their inventories. Most marketmakers are ready and willing to pay competitive prices for properly graded coins, as long as they are priced near current Bids. Coins with slightly lower mintages, will usually sell a little quicker than ones with very high mintages.

GOLD: The U.S. Gold market is quite steady at current levels. A few issues rise and a few fall. Overall, coins are trading and this activity keeps dealers in the market. Prices change according to dealers and how they balance their inventories; as long as the majority of issues are changing hands, this area will continue to do well.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen [illegible] or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily represent levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certification costs. Bids for **sight seen** coins may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be changed when Bids are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

***Please Note:** This page alternates weekly with Page 3A which contain BU and Proof Rolls

Tells why more people are turning to P C I

- ❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.
- ❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)
- ❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.
- ❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!
- ❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

Single copy price $4.00 Vol. XXXIV No. 16 April 19, 1996 *. . .a Friday morning report on the Coin Market*

SOLID MARKET INCREASES OPTIMISM
MORE DEALERS BIDDING MORE MONEY FOR MORE COINS

The Market in Depth

Over the last several weeks, we have observed a marked increase in Bidding activity in the overall market. With the exception of occasional minuscule declines for very specific issues, it seems that the market, as a whole, has solidified considerably. The number of buyers has increased and their buy prices have become much more viable {THIS READS—COMPETITIVE}. That is, the Bids are actually stronger and much more in queue with current Bid levels. In fact, we find more buyers willing to pay in advance of previous levels for specific issues, thus creating the plus signs found in many series.

To take this even further, it appears that more dealers are doing more business at coin shows as they take advantage of this opportunity to view the coins and select specimens that fit better into the appropriate collections of their customers. This makes three people very happy. First, the wholesale seller is happy that his sale is completed and the chance of a return is virtually nil. Second, the wholesale buyer hand-selects the coins that his customers need and has a built-in profit with the chance to buy the coins back at a later date and make profits again. Third, the customer is happy that his dealer has hand-selected a specimen that fits in with his other coins and has treated him fairly on price. This is a win-win situation and further nurtures the relationship between the dealer and his client.

As the weeks pass by, we get closer to the Eliasberg Sale May 20-22. The first session includes Colonials, Patterns, and Territorial Gold; the second contains U.S. Half Cents through Nickel Five Cent pieces; and the third session begins with U.S. Half Dimes and ends with Dimes. The balance of the collection with the higher denomination issues will take place near April of 1997.

A few more of the highlights that we examined included many issues that we do not include in our Greysheet pages. The 1879 Pattern $20 Double Eagle; the "Quintuple Stella". This lot should bring spirited bidding as it is one of only four known. How many collectors can say, "That they own this one."? The 1860 Pikes Peak $20 Gold is one of the finest known. It has very clean fields and grades a nice AU. The 1851 Humbert $50 Slug with 880 Thous stamped above the eagle is a wonderful piece with no obvious marks. Last for this edition, and certainly not least, is the 1855 Kellogg & Co, $50 Gold. It is known as the "King of Territorial Gold." It is a superb piece with bright surfaces.

This Week's Market

CENTS THRU HALVES: The BU roll market has been very active of late. There are buyers and sellers for many issues; prices depend on the needs of the individual dealer and how heavy their inventory is. Page 3 indicates plenty of Bid changes to take into consideration when making new transactions.

MERCURY DIMES: If you are looking for plus signs in the Mercury Dime chart, you will not find many this week. All the buyers are willing to pay posted Bid levels, but they are not in the mood to raise Bids. This series remains solid

WALKING LIBERTY HALVES: The Walker chart, on the other hand, has a long list of increases in the MS65 column. The issues from 1934 to 1947 are nearly all plused this week as buyers focus on the later issues.

DOLLARS: Solid Bidding continues to be the theme for Mint State Silver Dollars. Whether Morgan or Peace, buyers are willing to Bid to try to obtain properly graded coins at today's levels. While some issues have increased, the main activity takes place at previous Bids. It seems as if the sellers want just a little more than the buyers are willing to pay.

PROOF SETS AND MINT SETS: Although Proof and Mint Sets are very active in today's marketplace, you will find several declines in the Proof Set chart this week. Certain sets are just a little harder to sell and require discounts to make them go away.

COMMEMORATIVES: Silver Commems continue to spur new trading levels, especially in the MS66 column. Higher Bids occasionally bring out sellers who are willing to take advantage of the higher prices. In most cases, potential sellers just raise their Ask prices barely out of the reach of the buyer. Gold Commems are actively sought at reported Bids; a few increases have been monitored.

TYPE: While the Type market appears to be very solid at current levels, there is a definite lack of plus signs this week. The current marketmakers are satisfied with the amount of coins they are buying and feel that they do not need to raise Bids at this time. With Central States coming up, we will have a good opportunity to see where this market is headed.

GOLD: Despite the fact that Gold bullion has drifted lower this week, it seems as if there is more demand for specific issues at higher levels. This is a very good sign as buyers take advantage of current prices; buyers must feel that levels will increase in the near-term.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They represent the range at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be sensitive to the buyer's offer are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions. You should expect to pay a commission above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Eagles (Gold and Silver)

SIGHT-SEEN MARKET STRENGTHENS
STACK'S SALE TO HIGHLIGHT EARLY TYPE

The Market in Depth

After many years of Bidding for coins on a sight-unseen basis, it appears now that most dealers have come to the realization that this method of Bidding for coins only works for the most generic of issues. Even when a dealer buys common MS65 Dollars at a sight-unseen Bid of $90, out of a hundred coins, there will be about ten coins that he wouldn't have bought. The retail customer will not want to buy coins from the lower-end of the hundred, but he will still want to pay the dealer the same price for the upper-end.

While this makes sense (everybody wants to buy the best for the least amount of money), it doesn't keep a business operating efficiently and profitably. The only way dealers can remain in business is by making profits; the only way they can make profits is by selling coins for more than they paid for them. Furthermore, competition is still the best way to buy and sell coins; the more competition, the better the market is for everyone involved in buying or selling.

It seems as if we report on a major auction nearly every month. Where all these coins come from is well documented in the catalogues of the major auction houses. The big questions may be, "Where do all these coins go?" "How does the marketplace absorb all these coins?" Granted, not all the coins in these auctions are rarities, but someone has to be buying these coins and taking them off the market. The fact is, the majority of the rarities offered in auctions are removed from the active marketplace; either by a collector purchasing the coin directly, or by a dealer for a customer of his/hers. In some cases, dealers buy these coins for their own account, knowing full-well that they are worth more than they paid for them and someone will come along and be willing to pay more than they did.

Stack's will be having one of their sales on April 30 & May 1, in New York City. Along with rare Washington Coins and Medals, Stack's is offering a myriad of Early Type coins. Among the highlights is a lovely 1793 Chain Cent in VF; an 1805 Dime (4 Berries) BU; a 1796 Quarter in XF; and a 1794 Half Dollar in XF. Other highlights include:

DENOMINATION	GRADE		
1795 Half Dime	Ch. BU	1916 S.L. Quarter	Ch. BU
1800 Half Dime	Ch. BU	1889 CC Morgan $	BU
1839 ND Quarter	Ch. BU	1880 Proof Set (8 piece)	Ch to Gem Proof
		1875 Gold $	Ch. BU

This Week's Market

MERCURY DIMES: Mercs are as steady as they have been for the last several months. There are a few increases, mostly in the late-date, MS65FB issues.

WALKING LIBERTY HALVES: There is an increase in the number of Bidders in the Walker series. This results in several Bids increasing this week, generally in the MS65 columns.

DOLLARS: New Bidders have joined in the hunt for properly graded Dollars. There is an abundance of increases in this week's chart; the MS65 column (Morgan and Peace) is the most active as dealers pursue the better dates. Common Dollars, in MS63 and higher, remain steady at current levels.

PROOF SETS AND MINT SETS: These charts seem to be very contradictory this week. There is an unusually large number of declines, especially in the Proof Set chart. However, there is also a large number of Proof and Mint Sets changing hands at these levels. This is a very steady market despite the declines.

COMMEMORATIVES: One of the aspects of monitoring the wholesale market on a regular basis that we find very disconcerting is that so many dealers are willing to sell their coins at less than other dealers are willing to pay. This occurs in the Commem market all the time. We see dealers offering to sell MS60 to MS63 Commems, at levels under the current buyer's prices, for XF and AU coins. This week's Silver Commem chart is very active with lots of increases. Gold Commems are mostly steady with a few declines in the lower grades. Modern Commems remain very active, although you will find some discounted trades occurring.

TYPE: The Type charts are very active at present levels. There are some plus signs this week, but most dealers are holding steady at these levels. In order to increase the number of coins a dealer can purchase, he must raise the value of his Bid considerably; this only serves to increase the Ask price the potential seller places on their coins. At much higher levels, it becomes more difficult to sell coins to retail clients in this current market.

GOLD: The health of U.S. Gold is on the rise. More dealers are trying to buy more coins at higher levels in the past week. As a result, you will see several plus signs in the MS63, MS64, & MS65 columns. Where changes have not occurred, most issues are in demand at the posted Bids. Circ. Gold has fallen slightly, especially in the smaller denominations.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be graded "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally through the week at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certified coin data. Bids and Asks **sight seen** may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder. But will be changed by buyers who are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

The P C I Capsule . . .

☑ $7.50 PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)

❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.

❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!

❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXIV No. 18 May 3, 1996 *. . .a Friday morning report on the Coin Market*

CENTRAL STATES REPORT: MARKET IMPROVING
DEALERS CONFIRM VOLUME ON THE RISE

The Market in Depth

The opening bell produced mixed reports from the Central States Convention in Kansas City. Some dealers felt it began a little slowly. Others described their business as steady; they kept busy right from the get-go. Yet, even the dealers who said it began "slowly", were still doing business.

The market may seem to be in a state of flux as some dealers suggest, but it is quietly solidifying. The majority of dealers we visited, confirm that they have noticed a definite increase in their business. It is not yet booming enough to cause the dealers to jump for joy, but most do admit they are seeing positive signs that the market could easily surge forward.

Dealers are seeing less resistance at current price levels. Customers **want** to buy coins and are willing to pay the price for coins they feel are just a little "nicer", or represent a slightly better date. Of course, better-date and Premium Quality make the sale that much easier. Common coins are not as easy to sell, but discounting is not readily apparent. Most common issues will still move at current levels if sellers wish to accept the high Bidders offers.

As the show progressed, so did business. Sales increased as more dealers arrived. Most dealers reported a marked increase in sales compared to what they had expected. This appears to be a very nonchalant improvement in overall business that almost goes unnoticed. We can assure you that nearly every dealer we spoke with indicates their volume is on the rise. Added all together, the market seems to be rebounding from its 5 year lull.

There is a lot of talk and excitement about the Bowers and Merena, Eliasberg Sale on May 20-22. Dealers are hoping we get some overflow zaniness as we saw in the Jacqueline Onassis Auction, conducted by Sotheby's. And no, Kennedy Half Dollars are not worth $732 each. A lot of eleven halves brought $8,050. We can't expect that at the Eliasberg Sale, but it certainly would be welcome. We just need to get non-traditional coin buyers to show some financial interest. Anybody want to call Arnold?

This Week's Market

CENTS THRU HALVES: There are numerous changes in the BU roll chart this week. This area seems to be very healthy with lots of trades taking place. It seems as if dealers are willing to pay in advance of previous levels when they need something in a hurry.

MERCURY DIMES: Full-Band Mercury Dimes were on several want lists this past week. As a result, several issues are higher in the chart.

WALKING LIBERTY HALVES: Walkers are still very much in demand. Most Bidders are trying to pay current levels for coins they like. In many cases, the earlier issues will require more money to pry them away from potential sellers.

DOLLARS: Morgan and Peace Dollars were about as active as any series at the Central States Show. Many dealers were looking for just about any date. Common issues were going for listed Bid levels, while better dates could bring Ask or higher depending on the cash position of the seller. Weak sellers tend to get a little less than financially strong sellers. Peace Dollars are especially strong at current levels; also, there are sellers at the current Ask prices for nearly every issue in MS63 & 64.

PROOF SETS AND MINT SETS: These two charts indicate numerous declines this week; however, Proof and Mint Sets are trading very actively. It seems as if the buyers want just a little off the Bid price to make the deal. The majority of the unchanged issues are steady at listed Bids.

COMMEMORATIVES: The Silver Commem chart continues to report changes as dealers adjust their buy prices; most issues are receiving constant offers to buy in grades from XF to MS66. Gold Commems are also active at posted Bids; there are just a couple of lower issues. It looks as if Modern Commems are starting to receive more Bids at higher levels—probably in anticipation of the Atlanta Olympics.

TYPE: The report from Central States indicated that Type coins were in strong demand. More than a few dealers were looking for properly graded Mint State and Proof Type coins. They tried to pay Bid, but would pay more if the coin warranted the higher price.

GOLD: Mint State Gold continues to exhibit strength. More plus signs can be found in the chart for MS63 and better grade coins. Most dealers reported that they could not buy enough coins at the show; very little discounting was seen.
